Sioux Narrows-Nestor Falls Fire Rescue Services

Fire Tips from your Fire Chief:

1. Close Before you Doze—Closing your bedroom door before going to sleep can help slow the spread of fire and smoke, giving you more time to escape.
2. Make sure we can find you—make sure your civic address is clearly visible from the road. A visible address can help emergency crews locate your home faster when seconds matter.
3. Give your BBQ and generator some space—keep BBQ's at least 1 metre (3 feet) away from your home and other combustible materials. Portable fuel-burning generators should be operated at least 6 metres (20 feet) from buildings, with exhaust directed away from windows, doors and vent. Never use either inside a garage, shed, or enclosed space.

Be Safe!
