

TOWNSHIP OF SIOUX NARROWS-NESTOR FALLS

is requesting proposals for design & construction services for:

Highway Corridor Beautification Elements

The Township of Sioux Narrows-Nestor Falls is seeking to retain the services of a professional firm to finalize (build upon) the design as included in the Township Highway Corridor Re-Development Plan, to design and oversee the implementation of various beautification elements along the Highway 17 Corridor.

This project will implement a number of unifying items that will significantly contribute to bringing the entire plan together. These elements will be extremely visible for residents, and visitors to the community and will function to tie together the two townsites. They will also contribute to the overall appeal of our community as a destination, and are expected to increase the profile of the community as a destination resulting in increased economic activity throughout the community.

Interested consultants are invited to prepare a proposal which clearly indicates how the consultant will carry out the work set in the project terms of reference. Consultants will have access to the project terms of reference, and Highway Corridor Re-vitalization Plan: HTFC (2020) to prepare their proposals. Please request these documents prior to submitting a proposal. All interested consultants must submit one electronic copy of their proposal. All proposals must be submitted by noon on **Monday March 25th, 2024.**

Proposals and requests for further information should be directed to:
