The Future of the Turtle Portage Marine Railway System

Ministry of Natural Resources and Forestry Kenora District

The Ministry of Natural Resources and Forestry (MNRF), contacted stakeholders in September 2018 via mail-out, a newspaper ad and a sign posted at the Turtle Portage Marine Railway System located on the Aulneau Peninsula. These notices communicated to the public and Indigenous Communities the Ministry's intent to decommission the railway system. A number of comments and concerns were expressed regarding the proposed decommissioning.

In order to allow further public and stakeholder involvement, the MNRF has postponed the decision and is seeking additional input and potential options from the public, businesses and Indigenous Communities.

MNRF is inviting you to attend our open house public information session that will include a presentation on the history of operations at Turtle Portage and the challenges associated with the maintenance and operation of this system. This is scheduled for the following date:

Sioux Narrows Community Hall
August 14, 2019
4:00 pm—6:00 pm

If you are unable to attend or require additional time to share your concerns, please contact:
James Williams, Integrated Resource Management Technical Specialist
