

The Township of Sioux Narrows-Nestor Falls

Community Newsletter June 2019

Community Safety and Well-Being

Please take our survey titled "Community Safety & Well-Being Plan".

The Township of Sioux Narrows – Nestor Falls is partnering with the Ontario Provincial Police, the Northwestern Health Unit and local educators to develop a Community Safety and Well-Being Plan. Safety and Well-Being risks are different in every community. The intent of our survey is to help us shape the direction of a Plan for Sioux Narrows – Nestor Falls. We need the assistance of our citizens to guide us in our approach to identifying our local opportunities and challenges. The survey questions are meant to gather this information.

Those who wish to provide their name and email address at the end of the survey will be entered to win a participation prize; an iPod Touch or a grab bag (must be a resident of Sioux Narrows - Nestor Falls)! The survey can be found here: <https://www.surveymonkey.com/r/7YK2VCK> Your feedback is appreciated!

Community Newsletter June 2019

Safe Kids Week, happening June 3 to 9, 2019 in communities across Canada. Follow these tips to keep kids safe from falls in the home.

Home can be a safe place for children to learn and grow. However, most injuries to young children do occur in their homes. Children are vulnerable in this environment because heights, space and structures are built for adult use and comfort, often creating hazards for children. Children also have a natural curiosity about their environment and love to explore.

For children up to age 14, the leading causes of fall-related injuries are:

- falls from furniture;
- falls from playground equipment;
- falls on stairs; and,
- slips and trips (falls on the same level).

Most fall-related injuries to children under 5 happen in the home.

- ◆ Get on your child's level! Take time to get down on the ground and look around to see the world through your child's eyes to identify hazards around your home.
- ◆ Use window stops and keep balcony doors locked. A window screen can easily tear or get pushed through if your child is pressing on it. Keep windows locked when possible and use window stops, which prevent windows from being opened wide enough for a child to fall through.
- ◆ Use stair gates in your home. Always use hardware mount gates at the top of stairs. Pressure mount gates can be used at the bottom of stairs.
- ◆ Place all furniture away from windows and balcony door handles. Remember, children can climb even before they are able to walk. Climbing on furniture gives children access to windows and balcony door handles where they can fall from significant heights.
