Digital Success in the Changing Marketplace Workshop—November 7, 2022

The Township has undertaken a visitor data collection project, which will give us a strong indication of the visitors to our community and how they have changed as a result of the pandemic. Visitor origin information from 2019, 2021 and 2022 has been gathered and will be analyzed and presented at this workshop to provide interested businesses with a strong understanding of where visitors to the community originate and if and how that is changing.

This presentation will be immediately followed by a Digital Success in the Changing Marketplace workshop presented by Allyson Pele from the Northwest Business Centre. Interested businesses will be able to take the visitor information presented and potentially incorporate it in their own digital marketing strategies.
